## Area

Karaj, Iran

## ABOUT ME - MOTIVES

*I'm interested in coding and developing websites and apps that help people and make their life easier. I also love the fact that I can participate in the development of this modern era we are living in, so I always try my best to achieve the best possible results no matter how big or small the project is.*

## Personal Traits / Soft Skills

I am ...

- capable of maintaining a friendly atmosphere while respecting teammates and colleagues
- am open to suggestions and criticism that helps me to improve myself and my profession
- eager to learning new skills and technologies each and every day
- a real competitor. I try my best to keep up with others ,but the main goal is to compete with my older versions
